February 26: **We Are More Alike Than Different**
Organized by: UERM Memorial Hospital Postgraduate Interns

One of the most beneficial programs for a baby with Down Syndrome is an early intervention program. Typically, a team of professionals work together to train both parents and infant to enhance their baby's development, and the earlier this program is administered can make a big difference for their baby. The different types of programs may include physical therapy, occupational therapy, speech and language therapy, parent training and individual and family support.

During this time of pandemic, parents may still attend these programs so that their family can benefit from the support and information that they can get from experienced professionals as well as from interaction with other parents of children with Down Syndrome who share the same concerns.

Celebrating moments for **DOWN** at FESTIVAL

Lifemalls
FILINVEST

3 June 2022
Festival Mall Alabang

Another partnership created between Festival LifeMalls and the Down Syndrome Association of the Philippines, Inc.

After the MOA signing, a seminar was conducted for the Pixie Forest and Tom's World staff. These fun areas were open for persons with Down Syndrome for lunch with Jollibee! Thanks to Festival LifeMalls for supporting DSAPI. We look forward to more events soon!

25 June 2022

Our young adults with Down syndrome and their parents gladly supported the Manila Bay Clean Up Program. Let's share and help clean Manila Bay.

The Down Syndrome Association of the Philippines with PDAO San Juan celebrated the 44th National Disability Prevention and Rehabilitation Week.

Seven out of the 30 participants of the Love 'em Down Program are back to work! Since we are still under Covid-19 pandemic, Shakey's Pizza Asia Ventures and the Down Syndrome Association of the Philippines both agreed to

not run and successfully implement the program under new protocols.

The program aims to provide additional environment for learning and fun experience for people with Down Syndrome, at the same time, engage employees by involving them in a community-based activity where they can help create happy moments with differently abled individuals.

Mall launches 100 Days of Happiness Christmas countdown

Bernice Sevilla (left) and Jeremy Lapena, representing people with Down syndrome, walk the fashion runway as retail giant SM Malls launches its 100 Days of Happiness Christmas countdown at the The Block in Quezon City on Friday. The event was highlighted by a fashion show championing the company's advocacies and support of groups such as the Girls Scouts of the Philippines and the Down Syndrome Association of the Philippines, among others.

In the Halloween spirits!
Thank you Filinvest LifeMalls for all the
treats! It was indeed a successful
Halloween Party for the children
members of the Down Syndrome
Association of the Philippines! Everyone
had a fa-boo-lous happy howl-oween!

30 October 2022

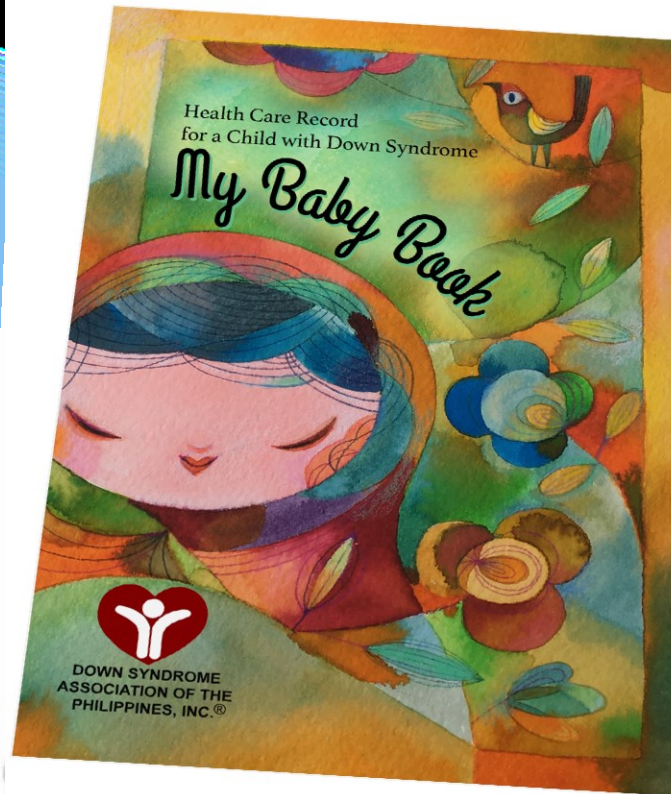

Thanks to our partner, Filinvest LifeMalls for your generous Christmas gift to the Down Syndrome Association of the Philippines. We're excited to celebrate the holidays with you!

The birth of any child is often a time of joy and excitement, concerns, and challenges. This is no less true when the child happens to have Down Syndrome. Most new parents don't know what Down Syndrome is, and what effect it will have on their child and family. DSAPI wants every family to know that they have us in dealing with the new concerns that the child brings. We are here to support them in coping with something they may not have expected to deal with — a baby with Down Syndrome.

Recommended Schedule for Immunization

Child's Age	Birth	6 Weeks	6 Months	9 Months	12 Months	9 Years	Dose	Booster
Vaccine								
BCG							1	-
Hep B							3	1
DPT							3	3
HB							3	1
HPV							3	1
PAC							3	1
Rotavirus							2	-
*Measles							1	-
Influenza							1	given yearly
JEV							1	1
MMR							2	-
Varicella							2	-
Hep A							2	-
HPV							2	-

Vaccines that are available in health centers for free.
 Vaccines that are free in selected regions.
 *Measles vaccine can be given as early as 6 months during outbreaks.

This schedule is approved by the Philippine Pediatric Society, Pediatric Infectious Disease Society of the Philippines, and Philippine Foundation for Vaccination.

Regular check-ups at your pediatrician's office or local health clinic are an important way to keep children healthy.

Medical Concerns

	Newborn	<1 Year	1-12 Years	Adolescent	Adult
Chromosomal Analysis					
Cardiac Evaluation	+				
Genetic Counseling	+				
Thyroid Function Tests	+	+	+	Y	Y
Vision Evaluation			Y		
Hearing Evaluation			Y		
Dental Evaluation			Y		
Developmental Assessment			every 6 months		
Early Intervention Services (PT/OT/ST)	+	+	+		
Genital/Spleen Checks					
3-cm					
Parental Support					
School Placement					

* - monitor/assess regularly
 Y - at least yearly

This list is adopted for the Philippine setting. Other laboratory tests may be required depending on the presence of other organ abnormalities, ask your pediatrician about schedules of the different procedures.

For additional resources, Medical Center Recommendations, please visit us on page 7.

MYDS:
Down Syndrome is hereditary and runs in families.

TRUTH:
All 3 types of Down Syndrome are genetic conditions (relating to the genes), but only 1% of all cases of Down Syndrome have a hereditary component. Heredity is not a factor in trisomy 21 and meiotic Translocation, a type of Down Syndrome that accounts for 1 to 4% of all cases, is the only type of Down Syndrome known to have a hereditary component, although it doesn't mean that parents have the same condition.

The **Health Care Record for a Child with Down Syndrome** includes information that will increase their knowledge and help put families in touch with one another. This Baby Book offers some suggestions, facts, ideas, and resources to help guide them through this challenging time.

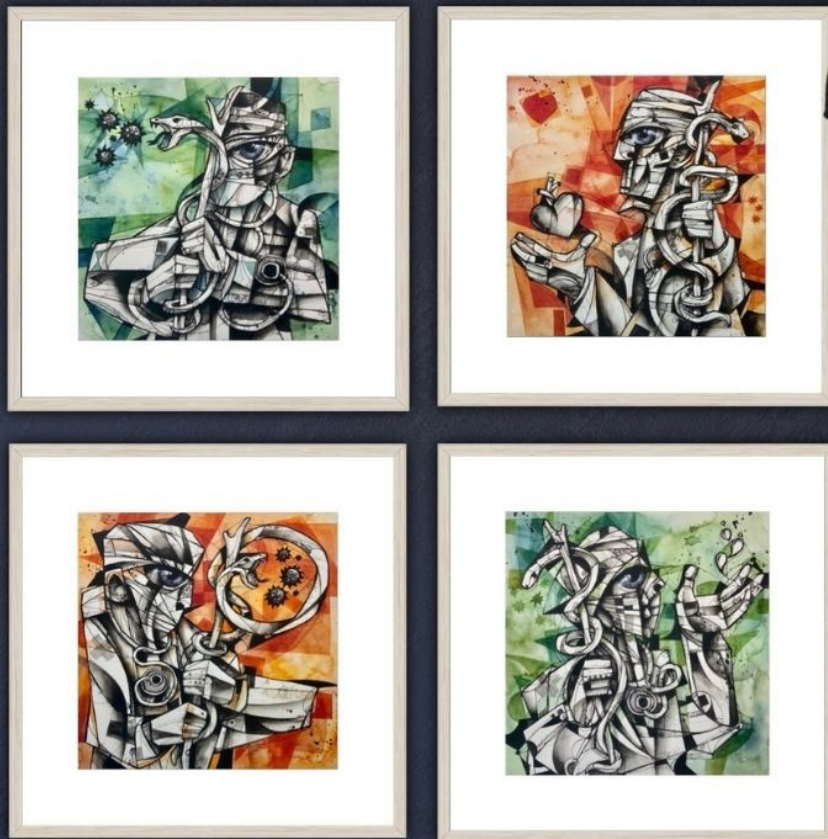

WARRIORS OF PASSION

Sadicon, is an insightful and talented contemporary artist whose works are formed through the lens of his background as a designer. His contemplations of the events during this pandemic are expressed in a very graphic style to reflect the compelling stories behind each scene.

Take part in honoring our Warriors of Passion and support DSAPI by acquiring these collectible fineart prints as a timely gift to medical professionals and loved ones you want to appreciate, or as part of your personal art collection.

Each collectible 28x28 cm artwork is printed in a limited edition of only 150 pieces, using pigment ink on 100% cotton archival paper. Each one is individually signed and numbered by the artist himself.

Each framed artwork can be purchased for Php4,500.00 through DSAPI. For international orders, see details in the post.

DSAPI Facebook

In celebration of its 30th year, the Down Syndrome Association of the Philippines, Inc. is proud to share “Natatanging Nilalang”, a song reflecting the sentiments of children with Down Syndrome. It speaks of their uniqueness and fullness of love. The song is composed by Ronnie Lee, who is fond of his nephew, my Lorenzara Lapeña, 25 years old with Down Syndrome, and arranged and interpreted by Chris Olivar. The song is timely as we join all families and friends of persons with DS in this year's theme “Sama-sama para sa Down.”

Special thanks to Elmer & Agnes Lapeña
