- Use recycle material for the package and product
- Use Green Energy in the sheltered workshop
- **Toy Bank – second hand toys**
- Sustainability Report

2025 Down Syndrome Day In Taiwan

Make it different

DOWN-SYNDROME

Shout Together: 321!

What kind of world can we build together?

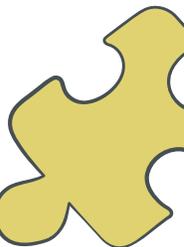

MAKE IT DIFFERENT

How can we make the world we envision a reality?

“Chance”: As long as we are willing to give one another a chance, we can get to know each other better.

“Smile”: Smiling is a characteristic of people with Down syndrome. Even when we don't know each other, a smile can bring us closer.

“Not difficult”: People with Down syndrome can take care of themselves and live in society with us. As long as you are willing to take the first step, supporting them is not difficult at all.
